ABOUT ME

Full Stack Developer with hands-on experience building web applications using React.js, Next.js, JavaScript, TypeScript, Node.js, Express.js, Python, Django REST Framework, MongoDB, and PostgreSQL. Experienced in developing REST APIs, authentication and authorization, CRUD operations, database integration, and responsive user interfaces. Familiar with Git, GitHub, Postman, and Figma, with practical experience in frontend and backend development, debugging, and API integration.

WORK EXPERIENCE

Zenly - Student Wellbeing Platform

MongoDB | Express.js | React.js | Node.js

- Implemented authentication and authorization.
- Built responsive and reusable React components.
- Developed REST APIs using Node.js and Express.js.
- Integrated MongoDB for application data management.

BagHaven - Full Stack E-commerce Platform

React.js | Node.js | Express.js | MongoDB | PayPal

- Developed a full-stack e-commerce application for an online bag store.
- Built product browsing, product details, shopping cart, and user-related functionality.
- Developed REST APIs using Node.js and Express.js for authentication, product management, and user-related operations.
- Integrated MongoDB for storing and managing application data.
- Implemented payment integration using PayPal.
- Built reusable React components for product browsing, authentication, and responsive user interfaces.

Ziblio - Book Library Manager (Mini Project)

Next.js | TypeScript | MongoDB | NextAuth.js | Tailwind CSS

- Built a book library management application using Next.js App Router and TypeScript.
- Implemented user registration, login, authentication, and protected routes.
- Developed CRUD functionality for managing personal book collections.

- Added search and reading-status filtering.
- Implemented user-specific authorization using server-side session validation.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, HTML5, CSS3
- **Frontend:** React.js, Next.js, Redux, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** MongoDB, PostgreSQL
- **Authentication:** NextAuth.js, JWT
- **Tools:** Git, GitHub, Postman, Figma

INTERNSHIP EXPERIENCE

Developer Intern, Zaitoon International Campus | March 2026 – Present

- Developed and maintained full-stack web application features using React.js, JavaScript, Python, Django REST Framework, and PostgreSQL.
- Built and integrated REST APIs for frontend-backend communication, implementing CRUD operations across multiple application features.
- Worked on authentication, authorization, API integration, and database operations.
- Debugged application issues and improved functionality through testing and code optimization.
- Used Git and GitHub for version control, code management, and collaborative development.
- Developed reusable frontend components and implemented responsive user interfaces using React.js.

EDUCATION

Full Stack Web Development, Zaitoon International Campus 2025 - 2026

Technologies covered: HTML, CSS, JavaScript, React.js, Redux, Node.js, Express.js, MongoDB, TypeScript, Next.js, and Data Structures & Algorithms.

Higher Secondary Education, Wadinoor Islamic Academy 2023 - 2025

LANGUAGES

Malayalam - Native | English - Working Proficiency
