

HASNA HAMZA

FULL STACK DEVELOPER

hasnahamza807@gmail.com [9074240464](https://www.linkedin.com/in/hasnahamza807) [Github](#) [LinkedIn](#)

PROFESSIONAL SUMMARY

Full Stack Developer with internship experience building responsive, user-focused web applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Experienced in developing REST APIs, implementing CRUD operations, database management, Docker-based deployment, AWS, Nginx, and GitHub Actions CI/CD. Strong foundation in JavaScript, TypeScript, and scalable application development.

Full Stack Developer with internship experience building responsive, user-focused web applications using React.js, Next.js, Node.js, Express.js, PostgreSQL, and MongoDB. Skilled in REST API integration, database management, Docker, AWS deployment, and CI/CD pipelines. Strong foundation in DSA with a passion for clean, scalable, production-ready code.

WORK EXPERIENCE

MERN Stack Developer Intern | Zaitoon International Campus | 2025-2026

- Built responsive web applications using the MERN stack and developed reusable React components for maintainable frontend architecture.
- Developed backend REST APIs with Node.js and Express.js; implemented CRUD operations and worked with MongoDB and PostgreSQL database schemas.
- Integrated frontend applications with backend APIs and debugged application issues to improve reliability and performance.
- Containerized applications using Docker and Docker Compose and deployed applications on AWS EC2 with Nginx reverse proxy and HTTPS.
- Configured GitHub Actions CI/CD pipelines for automated deployment and managed AWS resources using S3 and IAM.

PROJECTS

Zenly – Student Wellbeing Platform

MongoDB | Express.js | React.js | Node.js

- Built a full-stack student wellbeing platform with mood tracking, focus tools, mood-based challenges, and support features.
- Designed responsive UI components and integrated REST APIs for seamless frontend-backend communication.
- Implemented CRUD operations and MongoDB data management.

Meridian – Hospital Management System

Next.js | TypeScript | Node.js | Express.js | Docker | AWS | PostgreSQL

- Developed a full-stack hospital management system with authentication, CRUD operations, and REST APIs.
- Containerized the application using Docker and Docker Compose and deployed it on AWS EC2 with Nginx reverse proxy and HTTPS/SSL.
- Implemented GitHub Actions CI/CD for automated deployment and configured AWS IAM and S3 for access management and cloud storage.

EDUCATION

FullStack Development

Zaitoon International Campus | 2025 – 2026

Higher Secondary Education

Wadinoor Islamic Academy | 2023 – 2025

TECHNICAL SKILLS

Frontend Development : HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Redux, Tailwind CSS

Backend Development : Node.js, Express.js, REST APIs.

Databases : MongoDB, PostgreSQL.

DevOps & Cloud: Docker, Docker Compose, AWS EC2, Amazon S3, Nginx, GitHub Actions, CI/CD, SSL/TLS

Tools : Git, GitHub, Postman, Figma.

LANGUAGES

Malayalam (Native), English (Working Proficiency)
